## DETAILED ACTION

### ***Claims***

Claims 1-10 and 13-21 are canceled.

### ***Allowable Subject Matter***

Claims 22-37 are allowed.

The following is an examiner's statement of reasons for allowance:

As to claim 22, a search of relevant prior art did not disclose, alone or in combination, an active-matrix liquid crystal display with a generally rectangular pixel electrode having a recess in groove shape as claimed, wherein said recess is formed *linearly with a constant width except that it has a smaller width in its central portion in a longitudinal direction (see Figure 10)*. The closest reference is Rho who discloses a pixel electrode with a recess in groove shape, but Rho does not disclose the specific claimed structure of said recess.

As to claim 30, a search of relevant prior art did not disclose, alone or in combination, an active-matrix liquid crystal display with a generally rectangular pixel electrode having a recess in groove shape as claimed, wherein said recess is formed such that its *width is smaller in its central portion in a longitudinal direction of said recess and becomes gradually larger toward each of a pair of opposite sides of said*

pixel electrode (see Figure 11). The closest reference is Rho who discloses a pixel electrode with a recess in groove shape, but Rho does not disclose the specific claimed structure of said recess.

As to claims 23-29 and 31-37, they are dependant upon claims with allowable subject matter above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
